DEFAULT PROJECT RULES

- ✓ **Read Every Word Carefully:** Give importance to each message. Understand the client's vision, preferences, and requirements thoroughly before starting any work.
- ✓ **Research 3-5 Best Design Stores:** Find the top performing stores in the client's niche. Study their design patterns, layouts, color schemes, and user experience. Spend up to 5 hours on research - this is an investment.
- ✓ **Get Early Approval:** Share reference stores with the client before development. Get their feedback on design direction early to avoid major revisions later.
- ✓ **Replicate & Customize:** After approval, replicate similar design elements onto the client's store while adding custom touches that make it unique.
- ✓ **Use AI for Brainstorming:** Copy the entire chat into ChatGPT or similar AI tools. Ask it to extract key requirements, identify pain points, and suggest solutions you may have missed.
- ✓ **Solid Research = Massive Progress:** The goal is that when development starts, you move fast with confidence because the groundwork is already done.
- ✓ **🚫 No Self-Centered Thinking:** We don't work with developers who only think inside their little world. Think from the client's perspective. Think about the end user. Everything you deliver must be the BEST it can be - no shortcuts, no "good enough".
- ✓ **✅ Self QA Before Delivery:** Before marking anything as complete, YOU must test and verify:
 - ✓ **Mobile Responsiveness:** Test on mobile, tablet, and desktop views
 - ✓ **Cross-Browser:** Check Chrome, Firefox, Safari, Edge
 - ✓ **All Links Working:** Click every button and link
 - ✓ **Forms Functional:** Test all forms, cart, checkout flow
 - ✓ **Images Optimized:** No broken images, proper alt texts
 - ✓ **Speed Test:** Run PageSpeed Insights, aim for 80+ score
 - ✓ **Spelling & Grammar:** Proofread all visible text

- o ✓ ✓ **Compare with Reference:** Does it match the approved design?

INBOX CHAT

Hi Shreyansh Singh! I found your profile on Fiverr while looking for someone for Research Peptide Storefront Build. I put together a job description with Mira, Fiverr's hiring assistant, and I've attached it here as a PDF with the full details. If this looks like a fit, I'd love to hear from you.

Seller

27 Aug, 13:49

Hi! mdnjuan

You've officially reached the 🏆 #1 Expert on Fiverr!

You haven't just messaged a developer; you've contacted the ✓ #1 Ranked Top Rated Seller in Website Development on this platform which is why premium brands choose us over thousands of other agencies.

 <https://www.youtube.com/@DigitalMarketingHeroes>

We are the team behind ✓ 2.5 MILLION Subscribers on our YouTube channel, where we teach the world how to build and scale million-dollar brands. When you work with us, you get the same expertise trusted by global industry leaders like Hostinger, Loox, Minea and 2000+ More.

Why you can stop your search here:

-Unmatched Authority

-Your Vision, Perfected: We want you to point out every single inch of detail you desire. We build for your brand, and we offer unlimited revisions until it is 100% perfect.

-Zero Risk: We provide full support until you are 100% happy and satisfied.

Take a look at what we deliver:

👉 Our Brand Deck & Portfolio: <https://portfolio.digitalheroes.co.in>

Now, you can officially 🧘 SIT BACK and RELAX. You are in the best hands in the industry. Please share your project details or check out our portfolio above this will help us clarify your requirements and move forward quickly to exceed your expectations!

Seller

27 Aug, 13:49

hii how are you

mdnjuan

27 Aug, 13:49

hi I'm great how are you

Seller

27 Aug, 13:50

I'm doing great as well, thank you! 😊

I've received the brief you attached. I'll go through the requirements carefully so I can understand the scope, functionality, and overall storefront expectations. Once I've reviewed it, I'll get back to you with any questions and the best approach for moving forward. 👍

mdnjuan

27 Aug, 13:52

okay sounds good, looking forward to hearing back from you 👍

Seller

27 Aug, 13:54

thanks for the brief - it's one of the clearer ones I've been sent, and the fact you've already shortlisted SeamlessChex, AllayPay and PayRam tells me you've done real homework. Most people arrive assuming Stripe will work.

Seller

27 Aug, 13:54

I've reviewed it properly and there's one thing I want to flag before anything else, because it affects your date.

On 4 September. The build is achievable in that window. The payment gateway isn't. AllayPay runs 3 business days for underwriting, and from tomorrow that lands between 2 and 4 September at the earliest assuming they come back clean first time. There's also a sequencing issue: high-risk underwriters usually want to see the live site before approving, so you need the store to get the gateway and the gateway to open the store.

Seller

27 Aug, 13:55

That's solvable, and here's how I'd do it:

Build the store to completion by 4 September and put it live behind your existing coming-soon page. That gives AllayPay a real site to underwrite, which speeds their review rather than delaying it. You submit the application tomorrow, they review a finished store, and the day approval lands you flip one switch and you're trading. Your date holds for everything you control.

Seller

27 Aug, 13:55

A few notes on your gateway shortlist:

- AllayPay is the one I'd lead with. Domestic card processing, they underwrite this category specifically, and importantly for you - they take startup merchants, not just established volume.
- SeamlessChex is built for merchants doing k+/month, so it's a stretch at launch. It's eCheck rather than card, which also converts lower. Worth having later as a second rail.
- PayRam is a crypto rail. Useful as a backup, not as your primary.

One thing that changes the build, and I need your answer before I quote: does your chosen gateway support recurring billing? Subscribe & Save only works if it does. Several high-risk and ACH processors handle one-time payments fine but can't tokenise a card for automatic rebilling and if that's the case, "Subscribe & Save" becomes a discount code and a reminder email rather than a real subscription. Worth asking AllayPay directly when you apply.

Seller

27 Aug, 13:55

Also: your brief describes Subscribe & Save as up to 16% when buying 10 vials. Is that a subscription discount, a volume discount, or both stacked? They're three different builds in WooCommerce.

Seller

27 Aug, 13:55

can you share me your designing preferences?

okay got it

mdnjuan

27 Aug, 14:16

Replied

Me

27 Aug, 13:55

can you share me your designing preferences?

I have found that the website must communicate trust, provide clear product information, and guide customers through a smooth purchasing experience, clear disclaimers, COA integration, transparent policies, medical grade UI, high resolution imagery, in other words website needs to prioritize usability, performance and compliance, responsive design and fast loading pages are essential, a strong visual presentation with clear product structure and optimized user experience.

Seller

27 Aug, 14:16

yeah, i got it, we have created a lot of stores on peptide already

Seller

27 Aug, 14:17

You prefer wordpress right?

mdnjuan

27 Aug, 14:17

yes

Seller

27 Aug, 14:17
perfect, got it

Seller

27 Aug, 14:19
have a look on these
<https://everlast-research.myshopify.com/>
<https://www.biologixlabsresearch.com/>
<https://vitalpeptideshop.com/>
<https://wellbeingvitamins.co.uk/>
<https://nexxgenpeptides.co/>

mdnjuan

27 Aug, 14:28
wow they are all really amazing website designs, the biologixlabresearch.com and nexxgenpeptides.com was similar to what I was looking for, with a similar categories section setup similar to the one on vitalpeptides.com. definitely something similar to nexxgenpeptides with the research, the information, clear compliance, there all amazing great sites.

Seller

27 Aug, 14:36
glad to know, you likes those sites

Seller

27 Aug, 14:38
Perfect. Here's the full feature breakdown based on your brief and the references you liked. I've built it around nexxgenpeptides for the research/information depth and clear compliance you mentioned, with the category structure from vitalpeptideshop.

- PLATFORM & FOUNDATION
 - WordPress + WooCommerce, on hosting sized for commerce
 - purelypeptides.com connected, SSL, staging environment
 - Premium theme licensed in your name, child theme so updates never overwrite work
 - Lean plugin stack, every plugin documented
 - Daily automated backups, security hardening, firewall
- DESIGN - MEDICAL-GRADE, BUILT TO YOUR REFERENCES
 - Clinical, laboratory-grade aesthetic research supplier, not supplement store
 - Restrained palette, generous whitespace, high-resolution imagery throughout
 - Your Design.com logo and label assets applied sitewide
 - Category structure modelled on the vitalpeptideshop layout you liked

Research and information depth in the nexxgenpeptides register
Fully responsive, built mobile-first
Fast loading - image compression, lazy loading, caching, Core Web Vitals tuned
● SITE ARCHITECTURE
Home, About, Research, Quality & Testing, FAQ, Contact
Category and collection pages with filtering
Product pages from one template, not built individually
COA archive, searchable
Legal: Terms, Privacy, Refund, Shipping, Research Use Policy
Mega-menu navigation built around your real categories
● PRODUCT CATALOGUE — 15 PRODUCTS
Uploaded from a spreadsheet we send you
Product images with your company label and logo, as specified
Available sizes configured as variations — each with its own SKU, stock and lot
Purity, molecular formula, molecular weight, CAS number per product
Specification table on every product page
Storage and handling information
Clean category structure across the catalogue

Seller

27 Aug, 14:38

● COA SYSTEM & BATCH TRACKING

Certificate of Analysis hosted per lot, linked from the product it belongs to
Searchable COA archive by batch number
Lot number recorded against every order placed
Any lot traceable to the exact customers who received it
Uploaded and managed by you - no developer needed

Seller

27 Aug, 14:39

● SUBSCRIBE & SAVE - BOTH DISCOUNTS STACKED

One-time purchase and Subscribe & Save on every product
Volume break configured up to 16% at 10 vials
Subscription discount configured separately
Both stack, as you confirmed, so a 10-vial subscription gets both
Customer-managed: pause, skip, change quantity, cancel
Rules defined for renewals whether the volume break holds if quantity changes
Important dependency: this build assumes AllayPay confirms recurring billing support. If they can't tokenise for automatic rebilling, real subscriptions aren't possible on that gateway and Subscribe & Save becomes a discount code plus a reminder email which works, but it isn't the same thing. Let me know what they say and I'll confirm before we start.

● COMPLIANCE INFRASTRUCTURE

Research-use-only notice on product pages, cart, checkout and confirmation email

Acknowledgment checkbox at checkout, recorded with a timestamp against the order

Age verification gate on entry

Geographic restrictions - any states you choose to block, enforced at cart

Templates structured so claims cannot be added by accident

Transparent policy pages, clearly linked

Seller

27 Aug, 14:39

● CHECKOUT & PAYMENTS

Gateway built as a swappable layer - AllayPay primary

Second rail configured as fallback (SeamlessChex or PayRam) so a pause is a settings change, not downtime

Guest checkout, streamlined

Branded order, shipping and receipt emails

Customer account area with order and lot history

Live test transactions end to end before launch

● SHIPPING - US NATIONWIDE

Weight and dimension based rates

Free shipping threshold

Restricted destinations enforced at cart

Cold pack surcharge and ship-day cut-offs, if your products require cold handling — let me know

International shipping structure prepared but switched off until your labelling is ready

● SALES TAX

Destination-based US sales tax across states

TaxJar integration, as you suggested — I'll confirm current standalone pricing and plugin status before we commit to it, since TaxJar is Stripe-owned now and you're not on Stripe. Avalara and WooCommerce's native tax service are the alternatives if it doesn't fit.

Nexus settings configured to whatever your accountant advises

● CUSTOMER SUPPORT SETUP

Contact form routed to your inbox

Dedicated phone number displayed prominently

Support email configured

Response time expectations stated on the contact page 12h weekdays, 24h weekends

FAQ page built and editable by you

● SEO, PERFORMANCE

Titles, meta descriptions, clean URLs, correct heading hierarchy

Product schema for rich search results

Image alt text and compression

● TESTING & LAUNCH SEQUENCE

Full desktop, mobile and cross-browser testing

Age gate, acknowledgment and restriction rules all tested

Subscription and renewal flow tested

Live test transactions through the real gateway

Store built to completion behind your coming-soon page, so AllayPay can underwrite a finished site — then one switch on approval day

● HANDOVER & SUPPORT

Recorded walkthrough: adding products, editing prices, uploading COAs, processing orders

Written admin guide

Full ownership — hosting, domain, theme licence in your name

Post-launch support window

Seller

27 Aug, 14:39

let me know if all this looks good to you then i'll share the pricing proposal over here

Seller

27 Aug, 15:17

here's the proposal - please go through it and let me know if everything looks good to you then we'll proceed, if you have any questions then let me know

mdnjuan

28 Aug, 8:37

this is what allapay responded when I asked about recurring billing and setting up new merchant account

New Merchant Account_ Juan Medina.eml

mdnjuan

28 Aug, 8:38

I'm going through the proposal right now and let me know what you think about continuing with allapay as payment processor

Seller

28 Aug, 9:07

Seller

28 Aug, 9:28

I went through what AllayPay shared, and from what I understand, ACH recurring/subscription payments are possible, so that part looks good. The main thing we need to confirm now is the underwriting requirements, especially the reserve and legal opinion letter, before we move ahead with the integration.

mdnjuan

28 Aug, 9:31

yes that is correct, I'm filling out application and sending them all legal documents needed, they will tell me underwriting requirements once everything is submitted.

Seller

28 Aug, 9:35

Yes once they confirm in about these we can proceed futher with the integration accordingly.

mdnjuan

28 Aug, 9:45

Sure, Also let me know If you have any Things to be added in the Scope apart from the things you have mentioned Untill now in the chat...

Before that Can you Let me know which Plan you are leaning towards to Get and also When can we start this project?

Seller

29 Aug, 22:10

hii are we still connected?

mdnjuan

30 Aug, 9:49

yes hi I'm sorry for the delay I would like to do the third option, fully scaled plan, I would like to start Friday 9/4/2026, I have a last minute emergency I have to attend to and will be out of the country this upcoming week, but yes I'm very interested and I'm looking forward to working with you on this project, I'll get you that spreadsheet with prices, peptide sizes, and quantities, I also have all the COA's and safety data sheets in PDF file format and can send you all those before I leave tomorrow afternoon, I submitted everything for payment processor and I am awaiting a response, should have one soon. I'll be in touch and enjoy the rest of your weekend.

Seller

30 Aug, 9:54

Hi Juan, no worries at all, and thank you for the update. The Fully Scaled Plan is noted, and Friday, September 4, 2026 works for the project start.

Please send over the product spreadsheet, COAs, safety documents, and any remaining project details before your travel if possible. Once you're back and the payment processor confirms everything, we'll be ready to move forward with the setup and begin according to the agreed scope.

Have a safe trip, and enjoy your weekend as well!

Seller

03 Sept, 10:48

Hi Juan, just checking in ahead of tomorrow 😊 Since we're scheduled to start the Fully Scaled Plan on September 4, I wanted to make sure we're all set from your side.

Whenever you're ready, you can send over the product spreadsheet, COAs, safety data sheets, and any remaining details. Also, please let me know if there's any update from AllayPay on the payment processor side.

Once everything is in place, we'll be ready to get started. Looking forward to working with you on this!

mdnjuan

06 Sept, 8:08

hello, I apologize for the delay but yesterday was just one of those days that did not go as planned, sending over spreadsheet of current inventory, I also included all other peptides I would like to include for full scale website, it is more than 20 products so I'm aware that this will increase cost and possibly take more time which is okay with me, to move forward with this project, payments are all kept through fiver but do I pay for full project upfront or do I pay you through fiver per hour?

Seller

06 Sept, 8:20

Hi Juan, We work on single Just to reassure you on the payment side: Fiverr holds the funds securely in escrow and doesn't release them to me until the work is delivered and you're happy with it . So your payment is fully protected throughout , you're never paying blindly. It's one of the reasons working through Fiverr is safe for both of us.

Seller

06 Sept, 8:22

We work on a single project order rather than hourly. Everything will be handled through Fiverr.

Just to reassure you on the Fiverr side, the funds are held securely by Fiverr and released according to their order process. So you're not paying blindly, and everything remains protected within Fiverr.

I haven't received the spreadsheet on my end yet, so please resend it here when you can. Once I receive it, I'll review the additional products and confirm the updated scope before we proceed.

mdnjuan

06 Sept, 8:22

mdnjuan

06 Sept, 8:23

let me know if your able to view file if not I'll try again.

Seller

06 Sept, 8:24

Yes, I'm able to view the spreadsheet clearly. Thank you for sending it over

mdnjuan

06 Sept, 8:31

okay sounds good, due to holiday weekend and being busy yesterday I wasn't able to cash my check, so I wont be able to make payment until Tuesday. Just wanted to let you know. Also to answer your question, I have not heard back from Alipay yet and will be calling them on Tuesday as well to find out if I'm missing something or if they have any update for me.

Seller

06 Sept, 8:32

No problem at all, Juan. Thanks for keeping me updated. Tuesday works perfectly.

I'll continue reviewing the inventory and preparing the updated scope for the Fully Scaled Plan. Once you hear back from AllayPay on Tuesday, just send me the update and we'll take it from there.

Enjoy the rest of your weekend!

mdnjuan

06 Sept, 8:37

Thank you! Hope you have a great weekend as well!

Seller

06 Sept, 8:37

Thank you! I'll look forward to hearing from you.

Seller

08 Sept, 22:40

Hi Juan, hope you're doing well! 😊 Just following up as we discussed. Were you able to get an update from AllayPay today?

Also, please let me know when you'd like us to officially start the project from your side. Once you confirm, we can finalize everything and get started accordingly. Looking forward to working with you!

mdnjuan

09 Sept, 19:16

Good morning/evening! Yes I contacted allapay this is what they told me is required for website. once website is finished then they will review it to proceed with the application. lets get started right away I'm ready to proceed with payment through fiver right now.

 Apply AllayPay Merchant Services.png Apply AllayPay Merchant Services 2.png Apply AllayPay Merchant Services 3.png Apply AllayPay Merchant Services 4.png**mdnjuan**

09 Sept, 19:16

before I go into work for the day

mdnjuan

09 Sept, 19:24

When you get a chance, lets go over everything including new costs, time frame, etc so I can finalize everything on my end and we can officially start today 9/9/2026.

Seller

09 Sept, 19:30

Hi Juan, absolutely. Thanks for the update, and I'm glad we're ready to get started.

I'll go through the AllayPay website requirements you shared and review the additional products from the spreadsheet. Since the product count is now over 20, I'll update the scope, final and estimated timeline accordingly.

Once I've finalized everything, I'll send you the updated proposal/offer here so

you can review and proceed. We can officially start today, September 9, once everything is confirmed.

Looking forward to working with you on this and getting the store built exactly around the requirements we discussed.

mdnjuan

09 Sept, 19:33

Okay sounds good, thank you for all your help in making my project come to life. truly appreciate it.

Seller

09 Sept, 19:39

Hi Juan, absolutely. Before I finalize the updated cost and timeline, could you please confirm which plan from the proposal document you're interested in moving forward with?

mdnjuan

09 Sept, 20:10

I would like to move forward with the 3rd option or full scale website
